

Backgrounder

Canada and Manitoba support green infrastructure and upgrades to community, culture and recreation facilities

Joint federal, provincial and project recipient funding through the Investing in Canada Infrastructure Program will support nine infrastructure projects in Manitoba, including green infrastructure projects and upgrades to community, culture and recreation facilities.

The Government of Canada is investing more than \$21 million in these projects through the Community, Culture, and Recreation Infrastructure Stream and the Green Infrastructure Stream of the Investing in Canada Infrastructure Program. The Government of Manitoba is investing over \$4.8 million, and other funding partners are contributing over \$26.9 million toward eligible project costs combined.

Project Information:

Green Infrastructure Stream

Recipient Location	Project Name	Project Details	Federal Funding	Provincial Funding	Recipient Funding
University of Manitoba Winnipeg	Fort Garry District Energy Upgrades	Upgrade the Central Energy Plant and Max Bell Centre to improve energy efficiency and reduce greenhouse gas emissions across Fort Garry campus	\$14,069,200	–	\$21,103,800
